

Rainbow Lake Coalition

**With your help,
we can clean up Rainbow Lake!**

The Rainbow Lake Coalition is working with TetraTech Engineering to design a fish barrier immediately downstream from Lake of the Woods. Arizona Game and Fish has assured us that the design *will be* accepted when stamped by a Registered Professional Engineer.

With this barrier, carp for weed control can be introduced into Rainbow Lake. This is an all-natural and longer-term (~ 10 years) solution than the chemical weed control utilized last year.

Budget

**\$20,000 — Engineering Design Services
Summer 2012**

**\$30,000 — Barrier Construction Costs
Winter 2012/2013**

**\$30,000 — Introduction of carp
Late Spring 2013**

Your help is needed!

Please direct your *Tax-Deductible* donations to
Doris Morin, The Shores at Rainbow Lake, with the check made out to
the

Little Colorado River Plateau RC&D at
